

## Tower of Strength (inzingoefening)

I am the tower of strength within and without, I am the tower of strength within.

I am the tower of strength within and without, I am the tower of strength within.

I let all burdens fall from my shoulder, all anxiety slip from my mind

I let all burdens fall from my shoulder, all anxiety slip from my mind

I let every shackle be loose, I let every shackle be loose

I let every shackle be loose, I let every shackle be loose
